

Dear patients,

For the sake of providing you with the most secure service, we have decided to close access to most of our clinics. However, Elna-Clinique A, located on McGill Street in the Old Port of Montreal, remains open Tuesday to Friday to serve you. Private family medicine appointments are offered to you in addition to gynecology, colposcopy, hormonal contraception and STBBI screening clinics.

To ensure a safe environment for our patients and staff, please note that we favor telephone appointments and we take all possible measures to prevent the spread of COVID-19. However, note that all the appointments in gynecology will be in person.

You can make an appointment at 514-787-0055.

However, if you have a history of travel in the past 14 days OR cough OR fever OR breathing difficulties, please note that the clinic will not be able to take care of you. It is therefore important to make an appointment or to go to the CODIV-19 screening center nearest to you. If you already have an appointment or if you meet one of these criteria, please contact us at 514-787-0055 so that we can change the date of your appointment.

Thank you for your understanding,

The Elna Medical Team
